Minutes of third ADIDAS meeting, Hamburg, 25 September 2001

Dear ADIDAS colleagues:

Please find enclosed copies of all viewgraphs presented at our third meeting. Furthermore, a brief summary of the event is given on the next two pages. See the viewgraph copies for detailed information.

Note that some pictures from the meeting were made available at our ftp site recently. I suggest that we put them online at the ADIDAS website!

Best regards,

(Roland Romeiser)

Third ADI'DAS Meeting

Place: Institute of Oceanography, University of Hamburg

Time: 25 September 2001

Participants: Rene Garello (French team / ENST)
Olga Lavrova (IKI-RAS)
Leonid Mitnik (POI-RAS)
Marina Mityagina (IKI-RAS)
Roland Romeiser (UHSO)
Yuliya Troitskaya (IAP-RAS)
Susanne Ufermann (SOES-SOC)

Guests: Werner Alpers (UHSO)
Alexei Androssov (UHSO)
Stefan Kern (UHSO)
Angelo Rubino (UHSO)
Donald Thompson (JHU/APL, USA)

1. Introduction

Alpers: Brief welcome

Romeiser: Welcome and overview of project status (see viewgraphs)

2. Progress presentations and discussions

Ufermann: Convective cells in the Greenland Sea (see viewgraphs);
a manuscript on this will be written by Romeiser & Ufermann in collaboration
with Mitnik and others
(Discussion)

Mityagina: ADI'DAS database progress, experiments, modeling activities at IKI-RAS
(see viewgraphs)
(Discussion)

Lavrova: Case studies on internal waves and vortex rings (see viewgraphs)
(Discussion)

Troitskaya: Theory of nonlinear internal waves and of wave excitation in the presence of
surface films (see viewgraphs)
(Discussion)
(Lunch break)

Mitnik: SAR images and model results (see viewgraphs);
new e-mail address: mitnik@poi.dvo.ru;
ADI'DAS website @ POI: adidas.poi.dvo.ru
(Discussion)

3. Discussion on project status and upcoming activities

All: We need more collaboration, joint papers, focus on HH / VV differences

Revised meeting schedule:

19 April 2002	Nizhny Novgorod
October 2002	Moscow

The meeting at MeteoMer was deleted because some partners are running out of travel money and we don't need so many meetings; also the St. Petersburg meeting was deleted. Instead of a combined Moscow / Nizhny Novgorod meeting we will now have two separate meetings in April and October 2002.

4. Action items

All: Leave hardcopies of viewgraphs, or send them as soon as possible

All: Order / use images from database, improve collaboration, focus on HH / VV issues

Troitskaya: Organize next meeting on April 19 in Nizhny Novgorod
